

# RESOURCES

Begin your home electrification journey by speaking with Bay Area Regional Energy Network's<sup>1</sup> (BayREN) no-cost Home Energy Advisor. Call (866) 878-6008 or email [advisor@bayren.org](mailto:advisor@bayren.org).

## No- or Low-cost Programs

Choose **San José Clean Energy's** TotalGreen Option to power your home with 100% renewable electricity: [sanjosecleanenergy.org/totalgreen](http://sanjosecleanenergy.org/totalgreen)

Test a portable induction cooktop and cookware for up to 2 weeks provided by the **City of San José** for free. Sign up at: [sjenvironment.org/inductioncooking](http://sjenvironment.org/inductioncooking)

Get no-cost energy and water assessments and equipment installation from **Rising Sun Opportunity Center**: [risingsunopp.org/programs/ghc](http://risingsunopp.org/programs/ghc)

**GRID Alternatives** installs rooftop solar energy systems at no-cost to income-qualified households [gridsolar.org](http://gridsolar.org)

## Energy Efficient Electric Equipment

Look for the **ENERGY STAR**® label when buying heat pump systems, induction cooktops, and other appliances. ENERGY STAR® products are independently certified to save energy without sacrificing features or functionality: [energystar.gov](http://energystar.gov)

**San José Clean Energy** has compiled free resources to understand your energy usage, and rebates and financing to save on energy efficient equipment: [sanjosecleanenergy.org/save-energy](http://sanjosecleanenergy.org/save-energy)

**Electrify San José** provides rebates to San José residents to switch from a natural gas water heater to an electric heat pump water heater. Limited rebates are available until September 2020. Reserve your rebate: [sjenvironment.org/ElectrifySanJose](http://sjenvironment.org/ElectrifySanJose)

**BayREN** offers free online home energy evaluations, energy saving kits and rebates up to \$5,000 for electrification and energy efficiency improvements. Call **866-878-6008** or email [advisor@bayren.org](mailto:advisor@bayren.org).

## Renewable Energy

Deduct up to 26% of the cost of installing a rooftop solar energy system or solar-powered battery storage system through **federal tax credits** through 12/31/2020. After that, the tax reduction will drop down to 22% in 2021 and to zero after 2023: [energystar.gov/about/federal\\_tax\\_credits](http://energystar.gov/about/federal_tax_credits)

## Financing

**San José Environmental Services Department** provides information on financing options for energy- and water-efficiency upgrades: [sjenvironment.org/financing](http://sjenvironment.org/financing)

## Electric Vehicles

Check out **San José Clean Energy's** one-stop shop for electric vehicle resources: [sanjosecleanenergy.org/ev](http://sanjosecleanenergy.org/ev)

Get up to \$13,500 by stacking a dealership discount of up to \$3,200 on seven electric vehicle models from 4/1/2020 to 6/30/2020 with local, state, and federal incentives: [sanjosecleanenergy.org/drive-electric](http://sanjosecleanenergy.org/drive-electric)

Income-qualified residents can trade in a vehicle 2004 or older and get up to \$9,500 from **Bay Area Air Quality Management District** towards a new or used electric or plug-in hybrid car. If you buy or lease an electric vehicle, you can get \$2,000 for a Level 2 charger: [BAAQMD.gov/CleanCarsForAll](http://BAAQMD.gov/CleanCarsForAll)
